DM9: Astrophysical probes of dark matter - 202 (4:10 PM - 5:50 PM)

-Conveners: Shigetaka Moriyama

time	[id] title	presenter
4:10 PM	[191] Towards closing the window of primordial black holes as dark matter: The case of large clustering	Mr DEPTA, Paul Frederik
4:30 PM	[144] Observable signatures of dark photons from supernovae	DEROCCO, William
4:50 PM	[238] Detection of cross-correlation between DES Y1 shear and the extra-galactic gamma-ray background: implications for Dark Matter	Dr AMMAZZALORSO, Simone
5:10 PM	Closed session
